Descriptions of Licensed Housing Programs

LICENSED HOUSING

Community Residences - CR are congregate care facilities (group homes) which house 10 residents 18 years of age or older. These Programs are considered transitional and rehabilitative in nature, as the resident's goal is to move to a less restrictive living environment within 24 months. Bedrooms are single bedrooms. Residents participate in the upkeep of the house which includes meal planning and preparation. Recreational activities are provided. Staff is on site 24/7.

Treatment Apartment Program - TAP provide transitional housing in shared one and two bedroom apartments in the community. The apartments are located at a single site which has staff on site up to 24 hours a day. Staff provides services designed to assist residents obtain or refine skills necessary for independent living. Cash allowances for groceries are provided. Residents are expected to develop individual goals which focus on living more independently. The typical length of stay is 18 to 24 months.

Single Room Occupancy - SRO's provide housing that is specifically designed to offer permanent housing in a service-enriched setting. These programs are intended to provide housing and services for individuals capable of living independently. A team provides services on-site which includes case management, interactive groups, activities, medication management, money management and vocational linkage.

COMMUNITY REHABILITATION SERVICES NOTATION CODES

AT - Assertiveness/Self Advocacy Training - Training which promotes the individual's ability to assess his or her needs to make a life status change and to increase self-awareness about his or her values and preferences. Training is intended to increase an individual's ability to respond to medical, safety and other personal problems. Activities are also intended to improve communication skills and facilitate appropriate interpersonal behavior.

CI - Community Integration Services/Resource Development - Activities designed to help individuals to identify skills and community supports necessary for specific environments; to assess their skill strengths and deficits in relationship to environmental demands; to assess resources available to help the individual; to develop a natural support system; by accessing social, educational and recreational opportunities.

DLS- Daily Living Skills Training - Activities which focus on the acquisition of skills and capabilities to maintain primary activities of daily life; services are provided by addressing areas of functioning in categories such as: dressing, personal hygiene and grooming, selection and/or preparation of food, cleaning and washing of clothes, maintenance of environment, budgeting and money management. Training is intended to increase those competencies needed by the individual to live in his or her goal environment.

HS - Health Services - Training to maximize independence in personal health care by increasing the individual's awareness of his or her physical health status and the resources required to maintain physical health; including regular medical and dental appointments, basic first aid skill, basic knowledge of proper nutritional habits and family planning. Also, includes training on special topics such as AIDS awareness.

MMT-Medication Management and Training - The storage, monitoring, record keeping and supervision associated with the self-administration of medication. This does not include prescribing, but does include a certain degree of reviewing the appropriateness of the residents' existing regimen with the appropriate physician. Activities which focus on educating residents about the role and effects of medication in treating symptoms of mental illness and training in the skill of self-medication are also included.

PT - Parent Training - Structured activities intended to promote positive family functioning and enable the resident to assume parenting responsibilities. Activities include peer support groups to foster skills around effective parenting, assistance in selecting and obtaining housing appropriate for families, and linkage with the children's service system. Psycho-education programs on parenting skills, single parenting issues, child care and the nature of mental illness and its effect on the family are also included.

RC - Rehabilitation Counseling - A therapeutic modality which includes assisting the individual in clarifying future directions and the potential to achieve rehabilitation goals; identifying and specifying behaviors that impede goal setting; improving understanding regarding the influence of environmental stress; and helping an individual to apply newly learned behaviors to housing and other situations outside the program structure.

SD - Skill Development Services - Activities which assist clients to gain and utilize the skills necessary to undertake employment or pursue educational opportunities. This may include skills related to securing appropriate clothing, scheduling, work related symptom management, and work readiness training.

S - Socialization - Activities whose purpose are to diminish tendencies toward isolation and withdrawal or overly aggressive behavior by assisting residents in the acquisition or development of social and interpersonal skills. "Socialization" is an activity whose purpose is to improve or maintain a resident's capacity for social involvement by providing opportunities for application of social skills. This occurs through resident/staff interaction in the program and through exposure with staff to opportunities in the community. Modalities used in socialization include individual and group counseling and behavior interventions.

SAS -Substance Abuse Services - Services provided to increase the individual's awareness of alcohol and substance abuse and reduction or elimination of its use; including verbal and medication therapies, psycho-educational approaches, and relapse prevention techniques.

SM - Symptom Management - Activities to achieve a maximum reduction of psychiatric symptoms and increased functioning. This includes the ongoing monitoring of residents' mental illness symptoms and response to treatment, interventions designed to help residents manage their symptoms, and assisting residents to develop coping strategies to deal with internal and external stressors. Services range from providing guidance around everyday life situations to addressing acute emotional distress through crisis management and behavior intervention techniques.
