Recreation

The Recreation Program represents DePaul's commitment to a holistic treatment approach that emphasizes the consumer's well-being. Some of the group activities offered include basketball, T-ball, ping-pong, billiards, bowling, the utilization of exercise equipment and community outings.

Representative Payee Program

DePaul is certified to serve as a representative payee for interested individuals. When someone requires assistance in managing their money, DePaul can be appointed to serve as a representative payee ensuring that income is used for the personal care and well-being of the individual DePaul is representing.

Addiction Prevention and Support Services

National Council on Alcoholism and Drug Dependence – Rochester Area (NCADD-RA)

As one of nearly 100 nationwide affiliates of NCADD, Inc., the local branch provides research-based substance abuse and gambling prevention services to a diverse population through education, support, resources, advocacy and referral. The program also provides a wide array of training opportunities for

professionals in schools, health and human service agencies and the community, as well as laypeople.

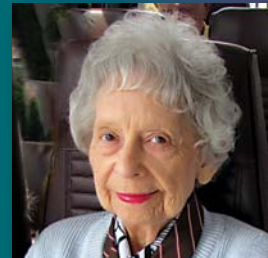

NCADD-RA Services

- Addictions Counselor Credential Training
- Community Education and Advocacy
- Finger Lakes Prevention Resource Center
- Hispanic Prevention/Education Program
- Total Approach Family Program
- Resources and Referrals
- Problem Gambling Prevention Program

Our Mission

DePaul, a progressive, private, not-for-profit organization founded in 1958, is committed to providing quality services including assisted living services for seniors; residential, rehabilitation and treatment services for persons with mental illness in recovery, some of whom have a history of homelessness; addiction prevention and support programs, vocational programs and affordable housing. DePaul assists individuals in achieving their optimum level of independence and success in the environment of their choice, while remaining sensitive to assessed community needs and available resources.

Senior Living Communities

DePaul has senior living communities throughout Western New York and North Carolina that provide assisted living services. Some of the communities have Memory Care Units for those with Alzheimer's disease and other forms of dementia, as well as specialized Assisted Living Programs (ALPs).

DePaul Senior Living Communities are licensed adult homes that offer the comforts of home, a commitment to enhancing quality of life, and personal care services in supportive environments that promote independence.

We offer:

- Furnished private and semi-private rooms
- Nutritious meals
- 24-hour access to staff
- Assistance with the activities of daily living, as needed
- Assistance with medication management
- Housekeeping and laundry services
- A full schedule of activities, outings and worship services
- Beauty/barber shop services
- Community support services and budget planning, as necessary

Vocational Services

WorkGuide

WorkGuide offers a wide range of services to assist consumers (ages 18 and older) in obtaining long-term employment in their chosen field. Programs are offered in English and Spanish to Monroe County residents who qualify for Adult Career and Continuing Education Services - Vocational Rehabilitation (ACCES-VR).

Transitional Employment

The Transitional Employment program is designed to provide work experience through unpaid internships prior to seeking paid employment. After successful completion of this internship, assistance in obtaining paid employment is offered.

Services include:

- A comprehensive vocational assessment
- Career coaching and development
- Resume preparation
- Interviewing skills
- Job development for volunteer placement
- Supervised volunteer placement
- Job development for paid employment
- Assistance with maintaining employment

Supported Employment

The Supported Employment program assists consumers with disabilities in obtaining and maintaining competitive employment.

Services include:

- Comprehensive vocational assessment
- Resume preparation and interviewing skills
- Career development
- Job development and placement
- Job coaching
- Long-term, follow-along services
- Education regarding maintaining Social Security benefits

Mental Health Treatment and Rehabilitation Services

DePaul provides treatment, rehabilitation and support services to consumers with a mental health diagnosis.

DePaul JobZone, a Personalized Recovery Oriented Services (PROS) Program

DePaul JobZone provides state-of-the-art, evidence-based clinical and support services to individuals working to achieve recovery from a serious mental illness. Participants engage in services that can

immediately and directly address their individualized knowledge and skill deficits to facilitate rapid success with step-by-step guidance to reach one's goals.

Individualized Job Placement and Support (IPS) is a component of the PROS program which assists people in obtaining

a competitive job in the community and is comprised of a menu of services tailored to the individual's needs.

Structured skill development and support assist people in developing recovery skills which promote movement toward life goals. These goals could include work, education, community membership, apartment living and other life roles.

The City Center has benefits counselors certified through Cornell University to help people manage the reporting of employment income, review how income will affect benefits and offer options for those who need to keep public benefits such as SSI, SSD and/or Medicaid in place while they are employed.

Mental Health Residential Services

Community Residences

Community Residences provide a comprehensive level of staff support, while encouraging independence, in a program licensed by the New York State Office of Mental Health. The program is sometimes the entry point to all certified programs and offers 24-hour on-site staffing, room and board, and recovery-oriented services.

To further enhance self-esteem and growth, an emphasis is also placed on consumer involvement in activities outside the residential setting including personalized recovery oriented services programs, vocational programs, school, and competitive- and non-competitive employment. This level of care is provided in Monroe and Erie counties.

Treatment Apartment Programs

Treatment Apartments provide consumers with the highest level of independence in a licensed program. The program is designed to be a preparatory step before the consumer begins to live independently in the community.

An emphasis is placed on increasing personal initiative and self-reliance. Staff make routine visits and are available 24-hours a day in case of emergency. This level of care is provided in Monroe, Erie, Orleans, Wyoming and Genesee counties.

Single Room Occupancy (SRO) Programs

Single Room Occupancy Programs provide housing in a service-enriched, recovery-oriented setting to adults with a psychiatric disability. The programs are licensed by the New York State Office of Mental Health and have a residential atmosphere with individual bedrooms, inviting common areas and outdoor courtyards.

Other services include 24-hour staffing, case management, crisis intervention, medication management; linkages to medical and dental care and health education services; social/recreational assistance, and vocational/educational services among others. This level of care is offered in Monroe and Erie counties.

Supported Housing Program

The Supported Housing Program is a non-certified New York State Office of Mental Health program that secures permanent housing for adults with a psychiatric disability. Staff provide resources for consumers with limited incomes to successfully find housing that meets their needs. Individuals receive a furnished apartment, linkages to necessary community supports and advocacy. This level of care is provided in Monroe, Erie, Genesee, Wyoming and Orleans counties.

Shelter + Care Program for the Homeless

Funded by the Department of Housing and Urban Development (HUD) and the New York State Office of Mental Health, the Shelter + Care Program offers permanent housing options to consumers who are homeless and have a psychiatric disability. Staff collaborate with recipients to locate and secure apartments, establish households by helping to purchase furniture and household items, develop a support plan, and identify service gaps while facilitating subsequent linkages. This level of care is provided in Monroe and Erie counties.

Transitional Housing Program

The Transitional Housing Program provides adults with a psychiatric disability in Erie County with short-term housing options for a three-month to two-year duration. It is designed for individuals who are not currently linked with housing and initially need more support while residing in their own apartment. The program assists persons who have had unstable living environments, frequent hospital visits, and/or lack of needed supports.

Affordable Housing

DePaul Properties, Inc. develops and operates a variety of well-designed, professionally-managed supportive housing options in urban, suburban, and rural locations. Our sites provide successful, cost-effective combinations of affordable housing along with services that help people live more stable, productive lives.

These environments promote respectful community relationships while delivering supportive services to people in need.
