Last month, Woodcrest Commons residents fed fish at the Fish Hatchery at Powder Mills. The fish are used to stock the surrounding rivers and streams which are sites for multiple fishing derbies throughout the season. Pictured here, Ivan Tuttle and Doug Kurlan check out some of the 10,000 brown trout housed in the holding ponds.

As fall arrives in Monroe County, Woodcrest Commons residents have been getting up close and personal with the splendors of nature. Pictured here, Jeanne Cobb enjoys some of the flowers at Powder Mills Park. PROVIDED
