Monroe Fire Department visits Woodridge

STAFF REPORT

The Monroe Fire Department made its annual visit to Woodridge, a DePaul Senior Living Community in Monroe, on Thursday.

After a presentation on fire safety, seniors at Woodridge headed outside for photos with the Department's mascot, Sparky, and tours of the fire truck.

"We really appreciated the Monroe Fire Department taking the time to come out to speak with the residents about fire safety," said Activities Director Brittany Plyler in a statement. "They shared some great information with the residents and answered any questions that they had. It makes us all more aware and grateful to know that we

have such an awesome fire department that answers calls so efficiently when needed."

The Monroe Fire Department offers several types of fire education classes, including fire prevention, cooking safety and fall prevention for the elderly, according to Monroe Fire Department Administrative Assistant Sheila Couick. Fire education presentations can be scheduled by calling (704) 282-4726 or by emailing scouick@monroenc.org.

Eddie Craig was among the Woodridge residents who took photographs with Sparky, the Monroe Fire Department's mascot.
