CORONAVIRUS AND VISITATION UPDATE: DePaul recognizes residents of our communities are at an especially high risk of contracting coronavirus and are more likely to become seriously ill from it.

Effective immediately, all visitation to our communities will be suspended.

Visitation will be allowed only when it is medically necessary and in imminent end-of-life situations. We understand this is difficult and challenging for our residents and their family members. We will continue to keep you informed of your resident's well-being during this national crisis and appreciate your support.

Please feel free to contact the community directly by phone or via email at depaulqm@depaul.org.
