

**The Power
of YOU.
The strength
of We.**

Our Mission

DePaul, a progressive, private not-for-profit organization founded in 1958, is committed to providing quality services including assisted living services for seniors; residential and support services to persons with mental illness in recovery, some of whom have a history of homelessness; addiction prevention and support services, vocational programs, and affordable housing. DePaul assists individuals in achieving their optimum level of independence and success in the environment of their choice, while remaining sensitive to assessed community needs and available resources.

Crissy Welzen, Design

“There is no power for change greater than a community discovering what it cares about.”

...Margaret Wheatley

Dear Friends,

Over the past 60 plus years, we at DePaul have heard so many stories of people in need. We've also seen so many people find their voice, find their future, find hope. Our dedicated and dynamic team goes the distance to provide the support needed to empower those in our care to begin new and rewarding journeys. Behind every 'you' has been a collective 'we' helping people discover their strengths and their passion.

DePaul has always been an innovator, thinking ahead to better determine how to best serve people as their needs evolve and outside influences change. We've never accepted the status quo. We've built our reputation as a respected provider by thoughtfully forging new paths. We believe it's better to be at the forefront, better to blaze that trail, better to well...be better. At our core, we work to discover what works.

True innovation has as its foundation trust, leadership and a reputation that is authentic and known. It's grounded in vision. It's grounded in making that vision a reality. It's grounded in believing we can change the world – or at least the part of it that compassionately serves those in our care.

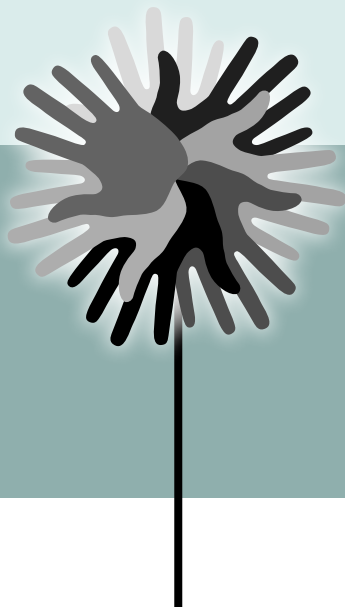

Collectively, we stand behind a mission of hope that works to discover the very best ways to help and offers an opportunity to take a stand and make a difference. We embody a vision of quality, excellence, caring and inclusivity. We know and believe that we *all* matter.

Thank you for being here as a friend of DePaul, for moving forward with us and for doing and supporting the work that means so much.

With Gratitude,

Mark H. Fuller
President

DePaul Mental Health Residential Programs

Since 1958, DePaul has been dedicated to providing services, support and hope to persons with a mental health diagnosis. Housing is a recognized cornerstone for recovery, offering stability, access to resources and a foundation for independence and success. New York State is home to a variety of DePaul housing options with varying degrees of independence including licensed congregate treatment sites, apartment treatment programs, community residence - single room occupancy programs, supportive housing and transitional housing.

A person's mental health is affected by many factors including the ongoing COVID-19 pandemic. People experienced increased symptoms of anxiety and depression along with changed sleep and eating habits which had the potential to result in more worry, stress and the worsening of chronic conditions. DePaul recognized the implications for those in our care and worked diligently to provide additional supports to help mitigate the effects for people in our programs. The level of stability experienced along with the assurance of safe housing, food security, and linkages to needed services proved invaluable.

Additional accomplishments achieved in 2022 included the following.

Approximately \$2 million in renovations were completed at **Edgerton Square** in Rochester, DePaul's first Community Residence - Single Room Occupancy Program which opened in 2000. They included interior and exterior improvements such as new roofing, a new generator, repaving, new flooring, paint, a full fire alarm replacement and lighting and mechanical upgrades.

New York State Assemblymember Sarah Clark toured the **Ridgeview Commons Apartment Treatment Program** in Rochester and stated the following on social media: "Today I joined @aclnys & @depaul_org for a visit & tour of Ridgeview Apts. Mental health housing providers need our support. We must invest more resources into housing models that work & continue to advocate for mental health support services in next year's budget #bringithomenys."

Mike, a resident of the **Batavia Apartment Treatment Program**, shared his story and information about **Forgotten Ones**, his peer-support network for those struggling with addiction, mental health, and/or coping with daily life. Mike's story was featured in The Daily News and The Batavian.

Crisis Housing apartments were increased to 23 units scattered throughout Genesee, Livingston, Monroe, Orleans, Wayne and Wyoming counties. The counties consider these apartments a valuable resource for mental health recipients who are in dire need of housing.

The Rutherford Place Licensed Congregate Treatment Program in Depew received a new roof, siding, gutters and porch.

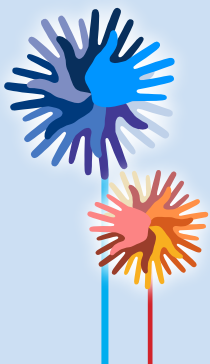

DePaul's three staff and client support teams — **Reintegration Support**, the **Recreation Program**, and **Care Management** — served over 400 clients in 2022. Services ranged from providing numerous self-help and support groups to recreational activities and linkages to other critical support services in the community. These services are vital to DePaul's clients and even more so during the pandemic.

DePaul's Care Management Program served nearly 200 clients who experienced a return to community-based activities such as volunteering, educational programs, and mental health rehabilitative programs.

A three-year certification was received for all of DePaul's licensed residential programs in Buffalo and surrounding regions from the New York State Office of Mental Health.

DePaul supported staff education and development throughout 2022, hosting Bachelor's- and Master's- level interns, two of whom came to work for the Care Management Program after completing their internships. The program also received designation as a Specialty Mental Health Care Management Agency after achieving performance scores of 83-95 percent on state-determined metrics. This allows DePaul to continue providing Health Home Plus services, which give increased levels of support to higher-needs individuals.

Parkside, a DePaul Community Residence – Single Room Occupancy (CR-SRO) Program in East Rochester and **Riverside, an Apartment Treatment Program** in Buffalo, continued providing donated clothing items to DePaul residents through REFRESH clothing boutiques. Clothing items are donated and cleaned by local area dry cleaners before being made available to all DePaul residents at no cost.

DePaul Senior Living Communities

As part of our mission-driven commitment to serving the elderly, DePaul's five senior living communities in Western New York provide assisted living, memory care and independent living options where residents enjoy the comforts of home, a commitment to enhancing quality of life, and personal care services in supportive environments that foster community while promoting independence.

In 2022, **Westwood Commons**, a DePaul Senior Living Community in North Chili underwent renovations including fresh paint, a new beauty salon, new furniture in the common areas, lounges and activity room, boiler/HVAC upgrades, a new dishwasher, new fire panel and system upgrades, along with updated LED lighting in hallways and common areas.

The dining room at **Heritage Manor of Lockport**, a DePaul Senior Living Community in Lockport was updated with new flooring, lighting and furniture.

Caregivers at DePaul's senior living communities recognize that activities and socialization are truly vital ingredients for resident happiness and satisfaction. Creative activities included themed food stations including omelet stations and a "pasta-bilities" bar, fundraisers for the Walk to End Alzheimer's including hot dog and sundae sales, entertainment from musicians and magicians, spirit weeks with staff and residents sporting wacky socks, colorful wigs and homemade tie-dye shirts, special celebrations including Pride Month and Juneteenth, photography club and cooking club, trips to the aquarium and local museums, virtual hot air balloon rides to the Bahamas and Florida Keys, standing on top of the Eiffel Tower, camping trips and visits to family homesteads using Rendevar virtual reality headsets, crafts including papier-mâché pumpkins, pressed flower glass jars and guided paintings and hobbies including playing the keyboard, writing poems, coloring and cross stitch.

DePaul had the pleasure of serving ten centenarians in 2022, the oldest of whom turned 107.

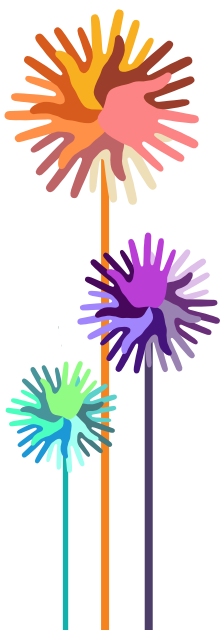

In 2022, DePaul seniors believed in making a difference and giving back!

Heritage Manor of Lockport hosted a food drive with donations going to the Resource Council of WNY to support Buffalo families affected by the Tops Supermarket hate crime. The community also hosted a pet food drive to benefit Diamonds in the Ruff Animal Rescue.

Glenwell staff in Cheektowaga raised \$3,191 for the Alzheimer's Association of Western New York's Walk to End Alzheimer's in September. Glenwell was recognized as the top fundraising team in the long-term care facility category and a trophy is now proudly displayed in the reception area.

Wheatfield Commons in North Tonawanda was thrilled to make a difference with donations of veggies grown in the community's garden for a local pup celebrity – Lloyd! While the Niagara SPCA was working on finding Lloyd a foster home, he enjoyed a series of "bucket list" adventures throughout Niagara County - "The Adventures of Lloyd!"

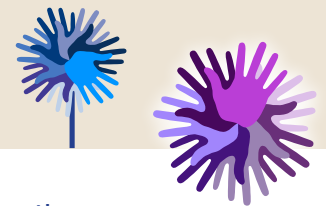

DePaul Affordable Housing Programs

Quality, stable, affordable housing – it’s a critical social determinant of health. It’s a fundamental human need that helps not only individuals but communities. DePaul develops and operates attractive, affordable housing solutions in urban, suburban and rural settings, along with supportive services that help people live more stable, productive lives. Every day, we see community relationships thrive and individuals triumph, taking pride in their new homes.

DePaul recognizes that many societal inequities exist when it comes to accessing safe, affordable housing, adequate food, healthcare, education and needed supports. DePaul is determined to evolve with the ever-changing world providing additional resources and services that meet growing needs and foster independence.

Our progress was seen in the following accomplishments.

In September 2022, DePaul completed construction and opened the **Lock 7 Apartments** in Oswego containing 80 units for income-eligible tenants with 40 Empire State Supported Housing Initiative (ESSHI) units. This includes providing on-site services for 40 units, with housing specialists that teach skills and assist tenants in linking to community services. Located on the Oswego Canal, the Lock 7 Apartments were constructed on the former site of the Breneman Company, a fabric and window shade factory.

DePaul completed construction on and fully occupied the final building of the **Apple Blossom Apartments** in Cheektowaga which have a total of 110 units for income-eligible tenants. The original Apple Blossom apartment building was renovated to add 15 one-bedroom units to the already existing 15 two-bedroom units. New construction included two new buildings each containing 40 units. The project has 15 supportive ESSHI units. The three buildings are named for apples grown in New York State: Gala, Empire and Cortland.

The **Boxcar Apartments**, a 40-unit project for income-eligible tenants in Albion were fully occupied in 2022. The community contains 20 ESSHI units providing on-site housing specialist support services which include linkages to community services that assist persons in living as independently as possible.

Construction continued on the **Batavia Apartments** in Batavia, adding 20 supportive ESSHI units for income-eligible tenants to the existing 42 units. Completion is anticipated in the summer of 2023.

Construction neared completion on the **Veddersburg Apartments** in Amsterdam. Named for the original settler of that region, Albert Vedder, the project contains 62 units for income-eligible tenants with 31 supportive ESSHI units. It is expected to open in Spring 2023.

In December 2022, DePaul started construction on **Pan-American Square** on Delaware Avenue in Buffalo, a relocation of beds from McKinley Square, a DePaul CR-SRO. Plans include increased energy efficiency design features for 150 units for income-eligible tenants that include 20 supportive ESSHI units and 80 CR-SRO units.

Pan-American Square is PHIUS+ 2018 & Source Zero Pre-Certified. PHIUS (Passive Housing Institute US, Inc.) is a non-profit 501(c)(3) organization committed to decarbonizing the built environment by designing high-performance passive building the mainstream market standard. DePaul is also pursuing a number of certifications including: Energy Star Multifamily New Construction Program, DOE Net Zero Energy Ready Homes and EPA Indoor AirPLUS.

Construction neared completion on the **Holland Circle Apartments** in Amsterdam. The project contains 48 units for income-eligible tenants with 27 licensed units to be operated by the Mental Health Association in Fulton & Montgomery Counties. Anticipated to open in the summer of 2023, the site includes five buildings: a one-story office/community building and four twelve-unit residential buildings.

DePaul began construction on the **Port Byron Apartments** in Port Byron which will contain 69 units for income-eligible tenants with 30 supportive ESSHI units. Once constructed, the apartments will replace the current 39-unit Church Street Apartments.

Initial challenges and improvements included spending two weeks cleaning up garbage and unsanitary conditions in the hallways and hiring regular housekeeping services, removing five dumpsters full of garbage, establishing a pet area, thoroughly cleaning the community room and adding new tables, chairs and décor, and adding onsite security. A welcome picnic was hosted for residents and DePaul Properties staff are on site every day. The project is anticipated to be completed by the end of 2023.

DePaul Affordable Housing Programs *(continued)*

Plans continued for the **True North Apartments** in Rochester that would contain 70 units for income-eligible tenants with 35 supportive ESSHI units.

Plans continued for the **Granary Apartments**, an 80-unit project in Sanborn containing 25 supportive ESSHI units and 20 Community Residence/Apartment Treatment Program units for income-eligible tenants. This project involves collaboration with Community Missions, Inc.

Plans continued for the **Mosaic Apartments** in Schenectady containing 60 units for income-eligible tenants with 30 supportive ESSHI units.

Plans continued for the **Dansville Apartments** at two sites in Dansville. The King's Daughters Apartments will have 12 total units and the Balloon Lofts will have 48 total units. Of the 60 units, 30 will provide supportive ESSHI services.

Future and potential New York projects include sites in Albany, Fort Plain, Olean, Utica, and Watertown, and the McKinley Square redevelopment.

WorkGuide, a DePaul Vocational Program

DePaul WorkGuide provides essential linkages for persons with a disability seeking employment. The program matches consumers' talents and abilities with positions at well over 100 employers in Monroe County. Vocational and supported employment guide people in successfully entering or reentering the workforce, providing supports that assist in overcoming obstacles, and eradicating stereotypes that can surround employing persons with a disability. Workplace accommodations are cost-effective and easy to implement, providing employment and independence that benefit the consumer, the employer and the community.

The following outcomes were achieved in 2022.

- WorkGuide provided services to 459 people across all employment programs.
- 231 people participated in placement services with the goal of achieving and maintaining competitive employment.
- 182 participants were employed.
- 87 people were placed in new jobs and 36 people in new internships.
- 119 vocational assessments were completed.
- 33 people who received Intensive Job Coaching support were stabilized in their jobs and successfully transitioned into extended services.
- 56 people reached the 90-days-employed milestone in their new jobs.
- 91 people enrolled in Work Readiness and Self-Advocacy classes for adults and students.
- 19 people graduated from Supported Employment Program by achieving independence in maintaining employment.

Ticket to Work (TTW) Program

- 15 clients were employed 30 hours or more and are on track to become fully self-sufficient.
- Two more candidates in the TTW Program achieved self-sufficiency by completely transitioning off SSI or SSDI entitlements and graduating from the TTW Program.

WorkGuide placements included a wide-assortment of jobs, ranging from entry-level positions in retail and food service to careers requiring degrees such as finance, information technology, and engineering. They included placements such as Assistant Court Analyst for Monroe County, Engineer at The DDS Companies, Grant Management Specialist at the Environmental Protection Agency, Graphic Designer, Lab Tech at Evolve Solutions, Nutritionist at RIT/NTID and Web Accessibility Coordinator at SUNY Brockport. Manufacturing and retail jobs were also on the rise and candidates were placed at HomeSense, Restaurant Depot, Staples, LeanLife, Sherwin-Williams and Turner Bellows, Inc.

In 2022, WorkGuide moved to a new building at 1000 University Avenue in Rochester. Program clients and staff also celebrated the immense difference made by the program during National Disability Employment Awareness Month (NDEAM)!

DePaul Recreation

Activity, whether it be creative, social or physical, for those with mental health diagnoses, can play a vital role in recovery. DePaul has always recognized the key importance of recreation and the resulting health benefits. Though the COVID-19 pandemic reduced options due to maintaining recommended social distancing and hygiene protocols, DePaul's Recreation Program inventively provided this needed resource, offering a critical outlet for coping with stress, reducing boredom and refocusing on positive experiences. In 2022, DePaul's Recreation Program was pleased to welcome residents back for programs at the Rochester Administration building in April.

There were outings to Charlotte Beach, the Fairport Canal, Genesee Country Village & Museum, various beaches and parks, Lollypop Farm, Rochester Red Wings and Rochester Americans games, Seabreeze Amusement Park and the Seneca Park Zoo. Other events included the 17th Annual Canal Clean Sweep, the annual Staff vs. Resident softball game, the Buffalo Bills training camp, a myriad of festivals and parades as well as trips to the Rochester Public Market and the Great New York State Fair. There were crafts aplenty including DIY kites, limerick writing, sand art, Valentine gnomes, vision boards and cards for all occasions. Contests included basketball hotshot, bocce, corn hole, euchre, hole-in-one, trivia, pool and name that tune. Each month, the Recreation Department also personally delivers each resident a birthday card and special treat/goodie bag with an in-person 'Happy Birthday' wish!

All of Recreation's efforts provide a way to stay connected and engaged, ultimately leading to improved wellness.

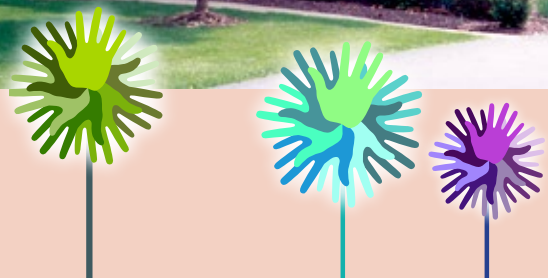

Hopelink at Shelter Cove

Hopelink is short-stay residence in Churchville in which individuals who are hospitalized have exclusive access to a unique residential alternative upon discharge from the medical hospital. It is a partnership between DePaul Community Services and UR Medicine/Strong Memorial Hospital.

Fifty-one clients were served in 2022 who were discharged from UR Medicine/Strong Memorial Hospital.

As this care alternative evolves, increased levels of medical acuity are experienced by those referred, including paralysis, severe complications of end-stage cancer, and numerous people with significant cognition issues. In addition, the number of people who come to Hopelink with medical issues directly related to an ongoing substance use problem is very significant.

National Council on Alcoholism and Drug Dependence - Rochester Area (NCADD-RA)

The National Council on Alcoholism and Drug Dependence - Rochester Area works to reduce the impact of alcohol, other drugs and problem gambling. Programs include the Addictions Counselor Credential Training (ACCT) Program, community education for adults and youth, the Finger Lakes Addiction Resource Center, the Finger Lakes Prevention Resource Center, Hispanic Prevention Education Program, Professional Continuing Education and the Total Approach Family Program. The Council, which celebrated 76 years of service to the community in 2022, provides education, information, support and referral services to individuals, families and the community.

NCADD-RA continued to offer education and community presentations both virtually and in person and received a surge of health/resource fair requests in 2022. Community education requests have returned to pre-COVID levels, providing education both virtually and in-person.

Preparations were made for the 350-hour program CASAC program which will welcome a new class beginning in January 2023.

The Finger Lakes Addiction Resource Center completed bi-annual revision of multiple referral directories, initiated a recovery engagement project at summer health fairs and continued virtual meetings and community professional development.

The Finger Lakes Prevention Resource Center provided technical assistance and training throughout the 12-county Finger

Lakes region to over 20 community coalitions.

The foster parent classes increased attendance due to Zoom delivery.

The youth evidenced-based programming, Too Good for Drugs, targeted for school district partners, reached multiple schools/classrooms and grade levels.

NCADD-RA received an extension on two State Strategic Opioid Response (SOR) grants that originally ended in September 2022.

The program received Substance Abuse Prevention and Treatment (SAPT) grants for infrastructure, workforce and stabilization. These dollars allow for an increased media presence and funds to purchase evidence-based curricula and staff training.

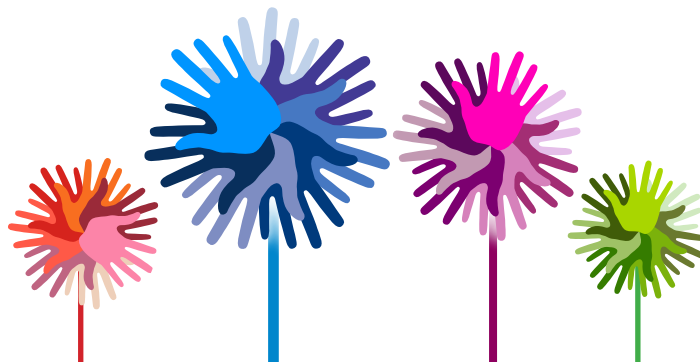

COVID-19 and its Impact on DePaul

The COVID-19 pandemic continued to be unprecedented in its scope and impact with conditions fluctuating throughout the year. DePaul staff rose to the occasion in their comprehensive and proactive responses. Our dedicated team was able to persevere through many challenges, continuing to provide the highest quality care throughout and for that we are immeasurably grateful.

The outpouring of support and donations from families and community members continued. We are beyond grateful for the endless support that brightened each day for residents and staff!

Representative Payee Program

DePaul is certified to serve as a representative payee for interested individuals residing in Erie, Monroe, Ontario and Wayne counties. When someone requires assistance in managing their money, DePaul can be appointed to serve as a representative payee ensuring that income is used for the personal care and well-being of the individual DePaul is representing. DePaul served over 1,100 people in 2022 and relocated the Monroe County program site to a new location.

Historic Winter Storm

The 2022 holiday season brought Buffalo a historic winter storm that devastated the region. Our truly heroic DePaul team ensured the seamless delivery of the highest quality care, demonstrating their dedication to the people we serve and to their fellow staff members going above and beyond.

The storm was paralyzing with whiteout conditions, feet of mounting snow, dangerous winds and frigid temperatures. In many instances staff members were unable to come in for their shift, thus those already on site remained for two to three days over the holiday, doing everything they could to bring care, services and comfort to our residents. Many sites lost power but generators were functioning, however at Seneca Square in Buffalo, the site not only lost power but the generator stopped functioning due to the intense cold and snow. Everyone gave of themselves to support each other and ensure proper care at such a difficult time.

The sites most impacted included the Apple Blossom Apartments, Ebenezer Square Apartments, Kensington Square, McKinley Square, Packet Boat Landing Apartments, Riverside Apartments, Rutherford Place Licensed Congregate Treatment Site, Seneca Square and the DePaul Senior Living Communities Glenwell, Heritage Manor of Lockport and Wheatfield Commons.

There were so many stories of teamwork with staff members snow blowing and shoveling throughout the ordeal, mopping floors, people cooking, cleaning and supporting each other. They truly demonstrated why DePaul is recognized for our culture of caring!

DePaul enhanced Diversity, Equity and Inclusion (DEI) efforts to further engage people in DEI leadership, support and awareness initiatives. DePaul provided independent and group trainings and learning experiences in areas including Deaf culture, LGBTQIA+ topics, Hispanic Heritage, Black History and others. The effort encourages DePaul team members to gain higher understanding, integrate initiatives and support inclusion throughout the organization.

Holiday Helpers

The Holiday Helpers program, which matches the wishes of our neediest residents who live independently in the community with generous donors, had 163 caring supporters including individuals, businesses, places of worship, board members, employees and community groups who made the holidays joyous for those in need.

Customer Service Week

In honor of Customer Service Week in October, DePaul staff recognized colleagues who deliver excellent customer service.

“Yvonne has created a welcoming, heart-warming environment and has made an impact on me and all who have crossed her path.”

“Joan is the first person a new staff member meets and makes them feel comfortable in their new surroundings. She shines on the most difficult days.”

“Donna is an exemplary employee. She truly focuses on the holistic needs of those she serves.”

“John makes new residents feel truly at home during what is often one of the most difficult transitions in their lives.”

Shining Stars

DePaul’s Shining Star program highlights the many ‘Shining Stars’ of our organization who go above and beyond their job duties. There was a total of 421 Shining Star awards in 2022 including 214 bronze (5 nominations), 104 silver (10 nominations), 64 gold (15 nominations), and 39 (20 nominations) shining stars.

The program recognizes and celebrates employees who continuously exhibit a positive “can do” attitude, being courteous and friendly, being caring, teamwork, professional manner, going above and beyond expectations and service excellence.

DePaul employees can be nominated for recognition by DePaul clients, residents, client/resident family members, visitors, other DePaul staff members or community members.

Praise for Shelter Cove

Thank you so much for all the effort you all made on my behalf. I will be forever grateful.
Thank you!

Making a Difference at the Clinton Avenue Apartments

The staff are all angels and I feel safe and heard. They always work to make sure I am doing well. I feel very grateful to live in my new apartment. Thank you!

Mom talked fondly of her "home" and her friends at Wheatfield Commons!

I will forever be grateful for the loving care and attention she received. Your staff are to be highly commended on how you have navigated these past few years. Thank you!

Finding Home at the Boxcar Apartments

I'm a resident at Box-Car apts. I love it here it is nice, clean I also feel safe in environment, The staff here are very caring and have compassion for me as a resident.
I will live ^{here} for ever wouldnt want to live anywhere else in the Country.
Thank you BOX CAR AND STAFF. 😊

Westwood Staff,
I can't thank you enough for all you've done this past year. Your heart, compassion and understanding is top notch!
With gratitude

"I have found a new life at La Rosa Villas. First and foremost, I am safe. I love my life. Thank you for your assistance, friendship and all of the extra little kindnesses that mean so much."

It's nearly impossible to fully express my appreciation and gratitude for all of you. What you do is remarkable.

My family member was so fortunate to be in your care, where you provide dignity and great kindness while facing incredible challenges.

Halstead Square is a very special place and all of you make it so.

Awards & Grants

Wheatfield Commons, a DePaul Senior Living Community in North Tonawanda, was awarded the 2022 Non-Profit of the Year Award by the Chamber of Commerce of the Tonawandas. The award is now proudly displayed on the Wheatfield Commons mantel!

Jason Gamble was recognized with the Commissioner's Community Care Award from the Office of Mental Health. Jason is a Program Director for Single-Site Supportive Housing and has distinguished himself as a tireless advocate for the people he serves, finding creative ways to reach people who have been resistant to treatment.

Jerry Bennett was recognized with the Community Youth Development Award from Youth Services Quality Council of Rochester and Monroe County. Jerry is the Community Development Specialist of the Finger Lakes Prevention Resource Center for DePaul's NCADD-RA.

The Apple Blossom Apartments in Cheektowaga were awarded LEED for Homes Silver Certification from the U.S. Green Building Council. The LEED (Leadership in Energy and Environmental Design) rating system is the foremost program for buildings that are designed, constructed, maintained and operated for improved environmental and human health performance.

The LEED (Leadership in Energy and Environmental Design) rating system is the foremost program for buildings that are designed, constructed, maintained and operated for improved environmental and human health performance.

The ESL Charitable Foundation awarded WorkGuide with a \$26,863 grant to provide operational funding to enhance the Supported Employment Program. WorkGuide has decades of experience providing vocational support to individuals with mental, developmental or physical disabilities seeking assistance with gainful employment in Monroe County.

The Mother Cabrini Health Foundation awarded DePaul a \$90,500 grant which was used to support the ongoing cost of technology engagement programs at DePaul's senior living communities. Funds are being used to maintain the costs associated with Eversound wireless headphones, Rendeever virtual reality headsets and IN2L, a content-driven engagement technology.

Contributions are listed by the cumulative total of cash gifts and pledges made between May 1, 2022 and April 30, 2023. This includes gifts and pledges to the Annual Giving Appeal, monetary gifts to the DePaul Holiday Helpers Program, United Way designations, grants for special projects, tribute gifts and memorials. Other contributors to the DePaul Golf Outing and those who purchased gifts for the DePaul Holiday Helpers Program are recognized in other publications. DePaul is also the grateful beneficiary of countless gift-in-kind contributions. Space does not permit us to name every donor, but contributions are known and appreciated. We are proud to honor those whose generosity benefits our programs and those we serve.

Visit DePaul on Facebook, Instagram, LinkedIn, Pinterest, Twitter, YouTube, our Blog and at www.depaul.org.
