

# DePaul Corporate Compliance Compliance Education and Training Policy

## **Purpose:**

The development and implementation of regular, effective education and training is an integral part of the Compliance Program. Compliance education is divided into two general components. First, all Affected Individuals must receive an introduction to the Compliance Program. Second, those parties whose work is linked to identified risk areas should receive specialized compliance education pertaining to their function and responsibilities.

For purposes of this Policy, the term “Affected Individuals” includes all persons who are affected by the required provider’s risk areas including the required provider’s employees, the President and other senior administrators, managers, contractors, agents, subcontractors, independent contractors, and governing body and corporate officers.

## **Policy:**

It is the Policy of DePaul (sometimes referred to as “Organization” or “the Organization”) to ensure that all Affected Individuals receive formal training relating to DePaul’s Compliance Program. DePaul will ensure that all trainings are provided in a way that is accessible to all Affected Individuals and that they are in alignment with the required State and Federal laws, rules, and regulations.

It is the Policy of DePaul to ensure that Affected Individuals in identified risk areas, and members of the Board of Directors and Management, receive more detailed education related to their function and responsibilities.

This Policy applies to all Affected Individuals. Successful completion of the training sessions is mandatory and a condition of continued employment, contract, appointment, or assignment with DePaul.
